- LED lighting
- Multiplexible solutions available (POA)
- Remote options available - please contact the Sales Office
- Versions available for refrigerated gastronorm containers and heated wet well bain marie (POA)
- Automatic vaporisation condensate
- Anti-mist heating element for front glass

IMPORTANT NOTE

Refrigerated serve over displays are designed to keep food products at refrigerated temperatures whilst displaying them for sale. Some counters have built in under-storage. The concept of a display counter is to display products ready for sale, the under-storage is intended to store additional products moved from a refrigerator to enable the operator to restock the display deck when products have been sold.

Many display counters are open displays and are not intended to be used as a long term storage cabinet. Serve over display need to be switching off for cleaning and regular maintenance and often require a manual defrost as in the UK many operate in high humidity conditions which can cause icing up issues.

TECHNICAL SPECIFICATIONS - REFRIGERATION

Controller:	Digital controller with temperature display
Cooling:	Ventilated
Defrost:	Automatic
Refrigerant:	R452a
Climate Class:	3
Temperature Range:	0°C ~ +2°C
Power Supply:	13amp

TECHNICAL SPECIFICATIONS - BAIN MARIE

Controller:	Manual thermostat
Temperature Range:	+66°C ~ +90°C
Power Supply:	20amp

TECHNICAL SPECIFICATIONS - HOT PLATE

Controller:	Manual thermostat
Temperature Range:	+66°C ~ +90°C
Power Supply:	13amp
