3 YEAR WARRANTY

† Note: WFG155 & WFG185 are one-chamber cabinets. In the cabinet there are two set points for the temperature - one in the bottom and one in the top. You can choose to have one temperature in the cabinet or choose to have one temperature in the bottom and a different temperature in the top. If you choose two different temperatures, the temperature in the middle will be something in between (because it is one chamber).
